

Hippos, We're Here

The word gets around
From show to shore
We've got the sound
You've been looking for
(Ah, looking for)
They try to keep us down
But we'll fight for more
We've got the sound
You've been looking for
(Yeah)
We're here
So clear
Turn up your radio
Till your speakers both explode
Turn up your radio
They've got no style
And they're such a bore
We've got the sound
You've been looking for
You better hide your dollars
Better lock your doors
Cause we've got the sound
You've been looking for
We're here
So clear
Turn up your radio
Till your speakers both explode
Turn up your radio
We're here
So clear
Turn up your radio
Till your speakers both explode
Turn up your radio
The time
Has come
To choose
Which side you're on
We've been waiting for so long
(We've been waiting for so long)
The time
Has come
To choose
Which side you're on
The revolution's near
So clear
We're here
Turn up your radio
Turn up your radio
We're here
So clear
Turn up your radio
Till your speakers both explode
Turn up your radio
We're here
So clear
Turn up your radio
Till your speakers both explode
Turn up your radio
We're here
So clear
Turn up your radio
Till your speakers both explode
Turn up your radio
