

His Name Is Alive, After I Leave U

Maybe Again When I Leave U
Maybe again after I leave u
Maybe again after I leave u
Go back to your devil
Get back with your devil

Lord, do you like to watch me dance
Does it make you smile
We need more than a blessing now
We hope for better times somehow

Maybe again when I leave u
It gets so heavy sometimes
Maybe again after I leave u
It gets so hard to choose

I took you apart so many times
Pick your battles and power lines
Go down to your batteries
Sun slides down in a straight line

Maybe again after i leave u
Noticers all around you
Saw you go down like a sunset
Stretched across the sky
