

# His Name Is Alive, Sometimes Screw

Criss Cross cover your smooth  
Slant-wise smile sometimes screw  
Are you lonely and betrayed  
Maybe give some back someday  
In my dream its beautiful  
We go down at the same time  
Its so beautiful  
Just like a six and like a nine

What happened to your happiness  
I dug your holes I took your hits  
The note was pinned on promises  
Last warning not a threat  
Your asking me where does it hurt  
The only answer that I knew  
Its somewhere in this room today  
I want you but I don't need you

Now my songs of hearts desire  
Light above a candle fire  
Dreams head off a memory  
Miracle came and fell asleep
