

Hissyfits, California

I know the sign and theres no attraction
dont waste your fine chemical reaction
Im not the one

Save it, leave it,
Its the end of the century
theres so much, too much
theres nothing to say,

and if you fall for the western ocean,
dont be shy its the best emotion,
under the sun ..
under the sun...

california, where going to california ,aahhhh ahhhh
i want to fly away,
i want to fly away,
to california
