

# Hit The Lights, Drop The Girl

Drop the girl, she's not worth the time  
She's wasted on her back dragging other boys into her lies  
You know she's no good for you  
She'd sink lower than a body in the Hudson could ever do

Drop the girl, she's only gunning for your heart  
She's sure to leave you broke and bleeding  
Cause she's all about trying to figure out the breakdown  
Whoa  
And you know she'll turn her back on you,  
She covers her tracks and buries the clues  
She's only set out to burn you  
And you know your better off so c'mon

Drop the girl Whoooooa  
She's the only reason she's got you believing its love  
Drop the girl Whoooooa  
The bridge is best for burning so send her down in flames and get up

Drop the girl you can taste it on her lips  
What she's drinking, who she's been with  
Yea she's so turned on (shes so turned on)  
How everything's gone wrong  
Its all her fault and you know  
She'll turn her back on you  
She covers her tracks and buries the clues  
She's only set out to burn you  
And you know your better off so c'mon.

Drop the girl Whoooooa  
She's the only reason she's got you believing its love  
Drop the girl Whoooooa  
The bridge is best for burning so send her down in flames and just  
Drop the girl from the highest building

The bridge is best for burning so send her down in flames and just

**DROP THE GIRL!**

Throw your pride aside and show your friends some faith  
(Is there a night where she forgets your name?)  
Who's got your back when everything's starting to fall right apart again  
(C'mon is that what it takes?)
