

# Hit The Lights, Stay Out

I've been thinking, let get out of this party yeah let's flee  
These kids never meant much to me  
I'll get this started, first shot is the hardest to deal with  
So let's sober up on the drive home  
Let's go some place where the cops will leave us alone

And we'll stay out all night  
'Cause rest is for the dead  
So we won't stop, no we won't stop  
Raise your glass high  
And let's throw out a toast to the road, where ever we go  
We'll hold friends close and never want to go home

I've been hearing you've been talking to my boys all wrong  
And giving us looks all night long  
Get your coat, time to go, hit the road  
You can find us hiding in headstones

So let's sober up on the drive home  
Let's go some place where the cops will leave us alone  
'Cause tonight is like you and I  
So alive and too young, too young to die

Stay out all night  
'Cause rest is for the dead  
So we won't stop, no we won't stop  
Raise your glass high  
And let's throw out a toast to the road, where ever we go  
We'll hold friends close and never want to go home

Let's break the bottles in well lit parking lots  
I know it's not much but it's all I've got  
We'll break the bottles in well lit parking lots  
I know it's not much but it's all we've got
