

Hitchcock Robyn, Uncorrected Personality Traits

Uncorrected personality traits that seem whimsical in a child may prove to be ugly in a fully grown adult.

Lack of involvement with the father, or over-involvement with the mother, can result in lack of ability to relate to sexual fears, and in homosexual leanings, narcissism, transexuality (girls from the waist up/men from the waist down), attempts to be your own love object. Reconcile your parents to you by becoming both at once!

Even Marilyn Monroe was a man, but this tends to get overlooked by our mother-fixated, overweight, sexist media.

So:

Uncorrected personality traits that seem whimsical in a child may prove to be ugly in a fully grown adult.

If you give in to them

Every time they cry

They will become little tyrants

But they won't remember why

Then when they are thwarted

By people in later life

They will become psychotic

And they won't make an ideal husband or wife

The spoiled baby grows into

the escapist teenager who's

the adult alcoholic who's

the middle-aged suicide. (Oy.)

So:

Uncorrected personality traits that seem whimsical in a child may prove to be ugly in a fully grown adult.
