

# Hocico, Where Angels Don't Sing

One scream awakes the beast  
your plea will be denied  
I can smell all those entrails  
they call me to start the feast

Nightmares will be raping your souls  
welcome where human warmth is ice  
Nightmares feeding from your fears  
welcome to see your world collides

I'm the envoy to cure your fantasies  
I'm the envoy to redeem all your sins

I'm the savior of your lewdnesses  
I'm your savior, don't you wanna understand?

You contort under my feet  
your blood has splashed my eyes  
you still scream, I want you to resist  
but you only want to rest in peace

I enjoy your screams, I kill and my hate exists  
I can rape your dreams, I kill and my soul exists

You're there where angels don't sing  
you lie where compassion's a myth  
nightmares will be raping your souls  
welcome where human warmth is ice  
Nightmares feeding from your fears  
welcome to see your world collides
