

Hockey, Song Away

Make me a deal and make it good for me
I wont get full of myself, coz i cant afford to be
This is small town music, this is big town music
He's ahead of his time you know but, he cant use it
If only he could prove it
Tomorrows just a song away, a song away, a song away
Tomorrows just a song away, a song away, a song away
Its just a song away
Hey
See what your man has done to the world
see what the world has done to your man
You know im leaving you, you dont need me
Lovin you wasnt always so easy
This is believe me music, this is forget me music
This is who can love me you know, this aint no roxy music
This is new form music, this is old form music
This is i paid attention not some makes his prediction music
Oh he could let me use it
Tomorrows just a song away, a song away, a song away
Tomorrows just a song away, a song away, a song away
Its just a song away
Not wanting to write a truthful song over an eighties groove
I like to let you know I'll always be straight with you
I stole my personality from an anonymous source
And I'm gonna pay for it too, I dont feel bad about that
Give me my chance back
This is on the rise music, this i novelty music
This is who can blame music, I dont get fooled by it
This is where dyu go music, this is come home music
This is down to the wire I'm such a perfect angel music.
Who really tries
Tomorrows just a song away, a song away, a song away
Tomorrows just a song away, a song away, a song away
Its just a song away
This is success music and whats it to ya?
My lawyer always says these are the fact about the future well
Tomorrows just a song away, a song away, a song away
Tomorrows just a song away, a song away, a song away
Tomorrows just a song away, a song away, a song away
Its just a song away.
