

Hoffsten Louise, Bringing Out The Elvis

(Larson / Hoffsten - Hoffsten)

just like fossil

frozen in time I couldn't move

my heart, my soul, my feet

then you unearthed me

and put me in a hot pulsating groove

now I'm a slave to the beat

Chorus:

you're bringing out the Elvis in me

making my hips wanna swing

you bring out the Elvis in me

making me burst out and sing

when I'm with you

I never have to feel like a sardine

in a little metal can

I'm more like a wild shark

who travels in a pink limosine

together with my fans

Chorus

people think that I'm a silly fool

cause I think you are so nice and cool

and some people say that you're so square

but I don't care

cause you're bringing out the Elvis in me
