White knuckles clutchin a factory steering wheel  
Adrenaline and road are all I feel  
Love that speed, they just dont understand  
Some say dangers done got me by the hand

(Pre-Chorus)

Outside my window, the hood of a ford  
He wants his name on my dashboard  
That long leg girl gonna drop her hat  
And when she does, you never look back

(Chorus)

Blood and sweat in this ride  
All my money and my pride  
Side by side quarter mile run  
9 grand strong or the motors done  
Counties finest on the hunt for me  
Send my name to the DMV  
Tires keep ahold of that road  
Hammer down, Elcamino

Winds a rushing over the cab  
Eyes on the road and tach  
Engine noise tells me that were fine  
Ease that throttle right to redline

(Chorus)
