Hoku, I'm Scared

I'm Scared I don't know where we stand anymore You've got one foot in my life And the other's out the door And I can't believe this is happening to me

Deep inside I've wanted to believe That somehow maybe someday There'd be someone there for me And I hope I haven't lost my chance

Chorus: I don't want to wake up to the reality
Of you not being here with me
There's so many possibilities
That we let slip away
And if your heart could speak
What would it say?
You're scared You're scared Your scared Your scared to say you love me....I'm scared I'm scared I'm scared I'm scared
No no no
Will you always stay?
You don't have to run away

I wish I could believe in what I feel I've been fooled so many times before I don't know what is real Maybe I'm just fooling myself

I'm running out of reasons to let go (Don't let go) Tried opening up my feelings But your door is always closed And I find myself dreaming my life away
