

Hole, The Void

When I looked at the streets
You know, it was talking to me
When I looked at the streets
You know, it was talking to me

The void
When I fill the void
The void
When I fill the void
The void
When I fill the void
The void
When I fill the void

See you into your revolution
What's a revolution?
Can you please wake up now?

1, 2, 3
3, 2, 1
1, 2, 3
3, 2, 1

When I looked in the void
You know, it was talking to me
When I looked in the void
You know, it was talking to me

The void
When I fill the void
The void
When I fill the void
The void
When I fill the void
