

Holland, Because Of You

I guess I packed my bags and gleft so fast
You always said I had places to go
The way I feel in Tennessee is that I lost my family
And everything I've always known
And memories keep falling down on me
Of different times when we were all complete

Can you believe that my home's away from home?
Can you believe that I made it on my own?
But I made it on my own because of you

We've had our hard times... friends that we've lost
I guess that love just comes with a cost

Heartache for days before we all slipped away
well I promise the I'll never let those fade

Can you believe that my home's away from home?
Can you believe that I made it on my own?
But I made it on my own because of you
