

Holland, Bring Back July

I should've stayed awake
This could've made a difference
Did I even say a prayer that night?
I've made a few mistakes
I could've made the effort
To try and keep the conversation light
And I'll feel this way until I die

Bring back July
I'll give you everything if you just
Give me one more chance to make this right
Bring back July
I'll never waste another minute
I'll live with my eyes open wide
Just bring back July

I should've left the house
I could've met you somewhere
In between the bridge and 59
I know the roads were clear
We could've drove for hours
And caught a glimpse of heaven on the rise
And I'll feel this way until I die

Bring back July
I'll give you everything if you just
Give me one more chance to make this right
Bring back July
I'll never waste another minute
I'll live with my eyes open wide
Just bring back July
