

# Hollow Coves, On The Way

I will tread down a lonesome track  
Set my eyes on the wild and won't look back  
I will follow where my heart reacts

Venture out to the great unknown  
Find a place where I can feel alive again  
Throw caution to the wind

I'll find my feet on the way  
I'll find my feet on the way

Climbing up from the valley below  
Seeing places and faces I've never known  
I will follow to the open road

Through the trees 'til I see the sun  
Now I know that I can feel alive again  
Throw caution to the wind

I'll find my feet on the way  
I'll find my feet on the way  
I'll find my feet on the way  
I'll find my feet on the way

Step by step I come alive  
Lift my head up to the skies  
Won't look back I'll chase the sun  
Live the life I'm dreaming of

I'll find my feet on the way  
I'll find my feet on the way  
I'll find my feet on the way  
I'll find my feet on the way
