

# Holly Dunn, For Your Love

Hey there's nothing I wouldn't do  
For your love baby for your love  
Rearrange the stars and hang the moon  
For your love for your love

And when the rain comes down I'll be your umbrella  
What's a little water to us  
When the sun comes out I'll be there to tell you  
I'm still crazy for your love for your love

Hey there's nothing I wouldn't do...  
[ steel - fiddle ]  
I'd walk a million miles on a real high wire  
Just to get across to you  
There's something in your smile that my hart requires  
Nothing that I won't go through for your love

Heart and soul you've got to know  
What your love does to me  
This is it I just can't quit  
Darling can't you see darling can't you see

That here is nothin' I wouldn't do  
For your love for your love  
Rearrange the stars and hang the moon  
For your love for your love

Hey there's nothing I wouldn't do...  
For your love baby for your love
