

# Holly Dunn, No Love Have I

(Mel Tillis)

A honey bee loves a flower  
A chickadee loves the sky  
Everybody loves somebody  
But no love have I  
No love have I

Standing on the corner  
Lovers pass me by  
How my heart is crying  
Cos no love have I  
No love have I

Every night in my prayers  
I pray some lost love will come my way  
Then we'll spend our lonely hours  
Making love in an ivory tower  
No love have I

Lonely is the city  
When the moon lights up the sky  
What good is that moonlight  
If no love have I  
No love have I

Everybody loves somebody  
No love have I  
Everybody loves somebody  
No love have I
