

Holly Dunn, Only When I Love

Most the time I don't ever hurt about you I do fine without you.
Most the time I don't long to have you with me your memory doesn't get me.
The only time that you still break my heart Is when I'm in somebody else's arms.

CHORUS

Only when I love
Do I think about us and what we lost and could have had together
Only when I hold someone new who could never be you I realize what's gone forever.

No one else has ever touched me like you touched me or loved me like you loved me.
When I forget I'm reminded when I try to find another like you
I only ache for the way we felt when I'm reaching out to someone else.

CHORUS

Only when I love
I think about us
Only when I love
I think about us.
