

Holly Dunn, We've Got The Love

Some never take the chance some never even try
The odds are so against love in these times
But when it comes to us our hearts won't let it go
We're gonna put our trust in what we know

We've got the love to make it
We've got the love to take it all the way
If we got us to lean on
We've got enough to keep on we're here to stay
We've got the love

I don't know anyone who knows what's down the road
But when the hard times come our love won't go
The only thing we need for us to see it through
Is knowing you've got me and I've got you

And we've got the love to make it...
We've got the love we've got the love
