

# Holly Tree, Hey! Stop It

you don't seem happy, you seem so sad  
what have you done? why do you look so bad?  
don't mind stupid things, don't care about them  
forget what makes you sick or something like that

stop it, stop it all  
come with me just don't get fucking down

you're just like they want, you're just one more  
while you are suffering they are just having fun  
so do what you want to, even if you break the rules  
don't be controlled by others just be you
