

Holly Valance, Curious

Welcome to the great unknown
Take a journey into the O zone
Feed your fire, feel the burn
And I'm learning the thing that you learn
Let's play the game
And I'm sure that you'll be so glad that you came
You never know till you let go
And discover your potential

There's nothing wrong with being curious
Adventurous
Step out of your mind
If something inside makes you curious
Then free it up
Initiation begins
When you jump right in

This is the end, let's begin
Lose your fear like you're shedding your skin
Nothing's lost when all is won
So I'm do all the things that you done
Feel the sound
And try to write a simple rhyme of spinning round
Before I leave, you ought to know
The more you scream, the faster that you go

There's nothing wrong with being curious
Adventurous
Step out of your mind
If something inside makes you curious
Then free it up
Initiation begins

Free up your inside
You're gonna like what you will find
You're never gonna know until you try

There's nothing wrong with being curious
Adventurous
Step out of your mind
If something inside makes you curious
Then free it up
Initiation begins

There's nothing wrong with being curious
Adventurous
Step out of your mind
If something inside makes you curious
Then free it up
Initiation begins
When you jump right in

There's nothing wrong with being curious
Adventurous
Step out of your mind
If something inside makes you curious
Then free it up
Initiation begins
When you jump right in
