She goes that way  
Cause she's scared  
Since the day  
That's he's gone by  
Left her there  
Tied to a chair  
She cries for help  
Could she know  
Which way to go

What the hell  
What a time  
To prepare  
A cold revenge  
Depraved and get  
Away from here  
Cause she rests off, in peace  
For days or months or years  
She'll be straight down  
And martyrdom
