

Hollywood Porn Stars, Torpedo

A thousand times I called you
You never gave me an answer
You choosed to leave in silence
I'm so proud of you

You gave me a bad number
I'm not as strong as I thought
I wish you'll never come back
Let me sleep in peace

Chorus :
We were wrong
But you stayed
For so long
Now we pay
We changed our mind

The clock is screaming your name
I had no rest since you left
I'm sure you're having fun now
I damn the day we met

The devil walks beside me
He sings my favourite song now
He reminds me of you
It's time to clean my head

Chorus

Building ourselves a new life
Building ourselves a new life
We made a mistake but we tried
Building ourselves a new life
Building ourselves a new life
We made a mistake but we tried
Building ourselves...

I'm swimming in cold water
But my bones are burning
Maybe it was my fault
I forgot to lie

Are you more than human
Your face is never changing
I wish I was at your place
Having better time

Chorus

Building ourselves a new life
Building ourselves a new life
We made a mistake but we tried
Building ourselves a new life
Building ourselves a new life
We made a mistake but we tried
Building ourselves...

Now and again
I look sad and insane
But not you
Dead body smile is cruel
