

# Hollywood Undead, Been To Hell

Welcome to a city that'll bring you to your knees  
It'll make you beg for more, until you can't even breathe  
Your blindfold is on tight, but you like what you see  
So follow me into the night, cuz I got just what you need  
We're all rollin' down the boulevard, full of pimps and sharks  
It's a motherfuckin' riot, we've been dying to start  
You better grab a hold cuz now you know you're falling apart  
You thought these streets were paved in gold  
but they're dirty and dark

Been to hell!  
I can show you the devil!  
Down you fell  
Can't hold yourself together  
Soul to sell  
Down here you live forever  
Welcome to a world where dreams become nightmares!

Welcome [2x]

In the belly of the beast, I'm a wolf amongst sheep  
At the bottom of the hill, but at the top of the street  
Above the boulevard, schoolyard, victim of deceit  
And you're running hard, but this wolf it's always at your feet  
Yeah you've seen it all before, but the wolf's outside your door  
And you're old enough to run, you ain't hiding anymore  
Another victim of the star spangled banner of the street  
Now you're in the world of the wolves  
And we welcome all you sheep

Welcome [2x]

You need to wake up and face it  
So you can taste my reality  
Now you're stuck in this place you hate  
And you came here so happily  
Then it made you lose your faith  
And that's what fucked with your sanity  
Say goodbye to your soul and say hello to your vanity  
Hollywood is your friend, and the undead are your family  
We'll take you to the edge, and turn your regret into agony  
And I'll never let you go, cuz I know you'll come back to me  
I'm the reason you came here, I'm the American Tragedy

Welcome [3x]

Welcome to a world where dreams become nightmares!  
Welcome
