

Hollywood Undead, First Class Suicide

I set a flame to watch it burn (ha)
In this game, it's my turn
Hit my line: 1800 crucify
You feelin me like a needle in your eye
Lies, lust, shit's to real, you feel the bounce from the back as I hit in the steel
I got an ounce in the sack back to the last meal
All the war broke out no need to conceal

I got a front row seat to watch it burn
Not everybody gets to see the end of the world!
Sit back and enjoy the ride!
It's the first class suicide
Grab the kerosene lets watch it burn!
Not everybody gets to see the end of the world!
Sit back and enjoy the ride!
It's the first class suicide

1-8-7 to everybody that ain't us
Swerving, Mac-11 bourbon
American gun but the tank is German
Serving, the opposition is hurting
Adrenaline that'll straight kill a virgin (ah!)
Suicidal, just to touch the corbain
And then I miss the twenty-seven club years of pain
I'mma cut my heart out on heavens gates and drain
All my fucking blood and I'mma make it rain
On all you wicked, you can only dream a big divine
Cause that voice in your head paved a road to your demise
Cause now the streets can run with blood
Ballista painted gold
Lets just watch it burn, it's getting fucking cold

I got a front row seat to watch it burn
Not everybody gets to see the end of the world!
Sit back and enjoy the ride!
It's the first class suicide
Grab the kerosene lets watch it burn!
Not everybody gets to see the end of the world!
Sit back and enjoy the ride!
It's the first class suicide

(It's the first class suicide)
It's hard to make amends when the ending is left to me
And theres nowhere left to go and no way I can let you leave
When the world comes crashing down, it gets harder to let you breathe
I don't wanna go to war but its sorta my destiny
And theres ain't no place to hide cause I'll find you eventually
It gets hard to say goodbye cause I'll die with my enemies
Suicidal tendencies it feels like it was meant to be
When its time to send you home then this bullet will set you free

I got a front row seat to watch it burn
Not everybody gets to see the end of the world!
Sit back and enjoy the ride!
It's the first class suicide
Grab the kerosene lets watch it burn!
Not everybody gets to see the end of the world!
Sit back and enjoy the ride!
It's the first class suicide
