

# Hollywood Undead, Hourglass

Wild kids  
Ride into the night  
Full moon  
We're drowning in the light  
You don't need to beat me  
You just need to keep up with me and Charlie Scene

Feet down and we're on the street now  
Undead wild and free now  
Danny get 'em  
Let them bleed out  
J3T just part the sea now  
For us it never ends  
No time to pretend  
So here we go again  
Yeah here we go again

I'd rather die than watch the sand slip by the Hourglass  
The angels cry as the lost boys die  
'Cause they never last  
But lost boys never die  
Lost boys never die

These streets look the same to me  
It's me that's changed  
Memories  
No last words no eulogy  
Haunted city  
Palm trees  
Dust to dust from dawn to dusk  
J-Dog's got that LA up  
Born and bred to rep the west  
'Til the sun sets and no one's left  
Lost boys from a lost time  
And a lullaby for a lost life  
In the shadows now  
No way out  
We don't need the sun  
We are the light  
We're gonna live forever  
No burial tonight  
'Cause the lost boys  
The lost boys  
We don't die

I'd rather die than watch the sand slip by the Hourglass  
The angels cry as the lost boys die  
'Cause they never last  
But lost boys never die  
Lost boys never die  
Lost boys never die  
Lost boys never die

You better say my fucking name  
When you go to sleep you see my face  
You and me we ain't the fucking same  
You better say my fucking name

You better say my fucking name  
When you go to sleep you see my face  
You and me we ain't the fucking same  
You better say my fucking name

You better say my fucking name
