

# Holy Moses, Deeper

(Music: Andy Classen/Words: Sabina Classen)

Inside of me - I love to be  
I'm ready now - So show me how  
Don't marry me - Be wild and free  
You're thrilling me - It's for you and me  
I like to tell - Pass not away  
Behind the wall - You wonder why  
You feel it too - So let us do  
It's hard for me - I learn to see  
It's fuckin' pain - Not more about  
I see the sea - You're calling me  
Don't let it die - inside of you  
Give it to me - It's my decay

I like to leave the world outside  
Because all the words I wrote  
will not fit to my voice  
I'm telling it to you  
But it's the last thing I can do  
When I see you passing away  
This holy fire is going  
Deeper, deeper in my soul  
I never thought before  
Deeper, deeper, deeper in my soul  
I never thought before

How can I make to change my mind  
Because I wanna make it right this time  
it doesn't matter much for you  
I am lost in confusion  
I have to grasp new illusions  
and I'm tired of losing  
words like that never crossed my way  
but you know - feelings can learn to die  
I like to leave the world outside  
Because all the words I wrote  
will not fit to my voice

I'm telling it to you  
But it's the last thing I can do  
When I see you passing away  
This holy fire is going  
Deeper, deeper in my soul  
I never thought before  
Deeper, deeper, deeper in my soul

Alone in a sea of agony  
That will be a lonely way to be  
I don't like to make it hard for me  
Time will tell our way to stay  
I am lost in confusion  
I have to grasp new illusions  
I'm tired of losing
