

Home Grown, Give It Up

i tune you out like a stereo
turn the dial and you'll never know
Don't try to think, you know what I'm thinking

So give it up now
give it up now

Give it up woah
Give it up now give it up now
'Cuz I can see through you
Give it up whoa
You know that I'd, do anything for you

Take a chance on stupidity
Have a seat, come ride with me
We'll set a course for anywhere but here
So give it up now
Just give it up now

Give it up woah
Give it up
'Cuz I can see through you
Give it up whoa
You know that I'd, do anything for you
Give it up whoa

Don't be afraid
To make a mistake

Don't be afraid (don't be afraid)
To make this mistake (to make a mistake), no

I'll turn you on like a stereo
So take a chance or you'll never know
The waters deep, but boredom can kill you

So give it up now
Give it up now

Give it up woah
Give it up
'Cuz I can see through you
Give it up whoa
You know that I'd, do anything for you
Give it up whoa

Give it up 'cuz I can see through you
Give it up whoa
Just give it up now
