

Home Grown, My Time Alone

Time away
I thought this through
I'm full of stress
I'm outside of you.

I've been thinking,
will she leave me?

Chorus: My time alone
and you are here waiting
for me to break
but I am not changing
I won't listen...

My time alone
and you are here waiting
for me to break
but I am not changing
I won't listen...

Apart from me
torn from the floor
honestly, I can't give you more.

I've been breathing
since you left me.

Chorus: My time alone
and you are here waiting
for me to break
but I am not changing
I won't listen...

My time alone
and you are here waiting
for me to break
but I am not changing
I won't listen
I won't listen to you

I'm not leaving
with you
I won't listen

Time away
you've lost all control
and I'm in need
of this time alone

and I've been breathing
since you left me.

Chorus: My time alone
and you are here waiting
for me to break
but I am not changing
I won't listen...

My time alone
and you are here waiting
for me to break
but I am not changing
I won't listen
I'm not leaving

I won't listen to you.
