

Home Grown, Ubotherme

You drive me up the fucking wall,
I can't stand you anymore.
I don't want to talk to you,
I'd rather be ignored.
Your mom's a bitch. Your dad's a jerk.
And you're a nasty whore.

I'm sick of all the things you do,
I can't stand you anymore.
Your breath is fucking stinky, and your body smelly.
Smoking all your cigarettes, you're gonna burn in hell.
You're a fucking loser, you're always getting stoned.
Masturbating in your bedroom, when you're all alone.

Well, I don't want your money.
I don't want you around.
I don't need your fucking company.
Because you bother me.
You bother me
You're so damn annoying.
You bother me
You're so irritating,
you bother me
yeah yeah yeah
you bother me

Whenever you start yelling, my ears begin to bleed.
I don't wanna listen, but you will never leave.
You are my ball & chain, there's nothing I can do.
My mind is going to explode, being around you.
You're always fucking singing, all the trendy tunes.
Play air guitar, you rock with gwar 666, you'll be a rock & roll star soon.
Going out to parties and acting really cool.
Shooting up and drinking when you should be in school.
