

Honest Bob And The Factory-To-Dealer Incentive

I saw you sitting there on Fruit Street,
But I'm not any good with words
I'm the red Integra parked behind you
So, I'll leave you this little note instead

I think that you should be more careful (parking) when you try to park your car
There were no damages, but, next time, (be careful)
They might not be as nice as myself

I saw you back up into my car
I saw you back up into my car
I saw you back up into my car

I saw you back up into my car
I saw you back up into my car
I saw you back up into my car

I saw you sitting there on Fruit Street
But I'm not any good with words
I'm the red Integra parked behind you (be careful)
So, I'll leave this little note instead

I saw you back up into my car
I saw you back up into my car
I saw you back up into my car

I saw you back up into my car (I saw you back up into my car)
I saw you back up into my car (I saw you back up into my car)
I saw you back up into my car (I saw you back up into my car)
