

# Honey Is Cool, Then He Kissed Me

Baby, I am just around the corner  
waiting with a friend of yours

People meet up facing their old parts,  
just another ordinary  
night out

And they laughed  
and they talked about their ordinary night  
and they stuffed  
and they washed me

That I want more, more, more  
than any other  
suddenly appears to me

And they laughed  
and they talked about their ordinary night  
and they stuffed  
and they washed me  
and then - he kissed me  
then he kissed me  
then he kissed me  
then he kissed me

then  
he  
kissed  
me
