

Honeydogs, I Don't Mind

Do you remember me outside your door?
I begged and pleaded for you to stay.
You wanted a man better than yourself -
that's not a man, that's something else (something else)
You cut your loses but you may have jumped the gun,
you'll be back I know, you've had your fun now

CHORUS

Well, it's time you took a fall
I'm tired of waiting on your call
There was a time when i'd give ya anything at all
But you wasted my time...
Yeah, yeah, yeah, yeah, yeah
I don't mind

Well the place is bigger now, I'll get used to it
You figure how but there's no use in it
There's more room in the bed at night
I'm all alone but that's alright (that's alright)

CHORUS 2x
