

Honeydogs, Seen a Ghost

Bells, they rang all night
Toss and turn, in your bed
Back to back
Your breaths are deep and pills
They help me go to sleep
Forget who I am
What I want
Where I'm going to
Straight, I stand up on my artificial bones
I've just seen a ghost
'To your past,' my favorite toast
Seen a ghost

Let down your rope
So I can crawl out of my head
I'm an open book
Have you read enough
A bird that's full flies away
Straight, I stand up on my artificial bones
Won't you take me home
'Cause I can't leave you alone
Seen a ghost
