

# Honeymoon Suite, Love Changes Everything

There was a time  
I wore different face  
I stood alone  
Feelings had no place  
I've givin' it all  
Taking nothing back  
You brought this lonely heart  
Back in from the cold

Just like a fire  
Burning higher  
You got my heart on a string  
But now I know, love changes everything

I don't need money  
Don't need no fame  
I gained only wisdom from so long in the game  
I built such a wall  
Love was just too dangerous  
Turned around you were right behind me  
There to catch my fall

Just like a fire  
Burning higher  
You got my heart on a string  
But now I know, love changes everything  
Just like a fire  
Burning higher  
You got my heart on a string  
But now I know, love changes everything

Only a fool believes in a heart of steel  
Yesterdays behind me now, whoa

(GUITAR SOLO)

Just like a fire  
Burning higher  
She's got my heart on a string  
But now I know, love changes everything  
Just like a fire  
Burning higher  
She's got my heart on a string  
But now I know, love changes everything

Just like a fire  
You got me burning  
You got me on a string  
But now I know, love changes everything  
Just like a fire  
You got me burning
