

Honorata Skarbek Honey, No One

lately I
think I've finally found the perfect guy
you blew my mind
ever since u stepped into my life

like no other
you're my perfect lover
in every way u make me better
like no other
you're my perfect lover
we are ment to be together

No one...
The me and you
The me and you

I feel brand new
never thought I could feel like I do
boy who knew
in every way your are my point of view

like no other
you're my perfect lover
in every way u make me better
like no other
you're my perfect lover
we are ment to be together

No one...
The me and you
The me and you

don't care about the rumors and buzz
nothing will come between us
And nobody will be able to
but me and you

Cause there is:

No one...
The me and you
The me and you
