

Hoobastank, Connected

[Verse 1:]

No one else
Will help us to get through
So by ourselves
We'll know just what to do

[Chorus:]

We are connected,
We'll never be alone
We walk together,
Forever down that road

[Verse 2:]

You and I
Will share all that we know
So close your eyes
And just let yourself go

[Chorus:]

We are connected,
We'll never be alone
We walk together,
Forever down that road

[Bridge:]

And if you fall behind,
and don't know what to do
I promise I'll be waiting there for you...
(for you)...

Follow me into a better day
We'll be alright,
no matter what they say

[Chorus:]

We are connected,
We'll never be alone
We walk together,
Forever down that road

Road, road, road...
