

Hoobastank, Never There

[1st verse:]

I'm filling up inside
Like i need to open wide
And pour my heart out to you
But i'll just get denied
And all i wanted was someone to hear what i'm going through

[chorus:]

Everytime that i need you around
You're never there (never there)
You're never there (never there)
Because in my life is where i need you now
But you're never there (never there)
You're never there (never there)

[2nd verse:]

You were supposed to see
All the signs i left to read in front of your face
You were supposed to be
The closest thing to being me
But you're the furthest away
That's because.....

[chorus:]

Everytime that i need you around
You're never there (never there)
You're never there (never there)
Because in my life is where i need you now
But you're never there (never there)
You're never there (never there)

You're never there

And i doubt
That i will ever find out
If there's a way to get out
Of feeling all alone
Cause latley
I've been thinking
Maybe
That no one's going to save me
I'll do it on my own.....

On my own

[chorus:]

Everytime that i need you around
You're never there (never there)
You're never there (never there)
Because in my life is where i need you now
But you're never there (never there)
You're never there (never there)
