

Hootie And The Blowfish, Old Man & Me

There
In my family say
"We've never been anywhere"
"To the left sea
Can we go please
We don't care we want to
Sit and stare at it"
Can we try
To hold up our hand
Feel the power of the land that we trampled once
Can we go
Where you go
We know you always need us behind
It's me it's me
Calling around looking for your reply
Let me tell you where the story
Can run to now
We came together
We will leave here one by one
Let's go on and remember
Where we've been
Aunt Inez
From Virginia she
Makes me feel like I could be president
Of all I see
And all I dream
In these eyes that have held so much punishment
CHORUS
When she laughs
I hold up my head
She makes me feel like I could walk on water now
Can she go
Where I go
I know I'll always need her behind
CHORUS
