

Hootie & The Blowfish, Goodbye

Tomorrow, used to be a day away
Now love is gone, and you're into someone far away
I never thought the day would come
When I would see his hand not mine, holding on to yours
Because I could not find the time
And now I can't deny
Nothing lasts forever
But I don't want to leave and see the teardrops in your eyes
I don't want to live to see the day we say goodbye

Now there comes another part in life I recall alone
Sitting at a bar with Chris that I can't leave
cause my house ain't no home
No, I just want to touch you girl
I want to feel you close to me
Without your love
I would give up now and walk away so easily
So maybe while we're gone
We'll figure out together
that even with the pain there is a remedy and we'll be alright
I don't want to live to see the day we say goodbye

When I first met you I couldn't love anyone
Oh, but you stole my dreams
and you made me see that I can walk into the sun and I can still be me
and now I can't deny
Nothing lasts forever
But I don't want to leave and see the teardrops in your eyes
So maybe while we're gone
Let's figure out together
that even with the pain there is a remedy and we'll be alright
I don't want to live to see the day we say goodbye
We say goodbye
Oh, goodbye
Goodbye.
