

Hope Conspiracy, Ashcroft

(The Suicide File)

If what it boils down to
is that "you're either for us or against us"
I guess I've got a tough, tough choice to make
cause hollow patriotic actions and reenactments don't move me
and mostly this 21st century brand of propaganda and rhetoric
co-produced by disney and sanitized by cgi just makes me sick
and when I peer through the red, through the white,
and through the blue - I can see people like you
using tragedy to advance your own narrow moral crusade
