

Hope Of The States, Bonfires

It's speeding up around me
But my heart is slowing down until it stops

This train is off the rails
The devil's in the details
No one notices

There's bonfires in my head
There's criminals in my chest
No one notices

And I'm desperate
And I'm lonely
The hospital is empty
No one notices

It's not enough to say I'm sorry
For all the pain and the worry
What are you waiting for?
Give up on me and leave

It's not enough to say I'm sorry
For all the pain and the worry
What are you waiting for?
Give up on me and leave

So I saw the houses empty
And the people gathered round
And spat at me

Yr the family we hated
Not the only one who's waiting for the end

There's bonfires in my head
There's criminals in my chest
No one notices

And I'll lead them off the edge
I'll drown them in the Dead Sea
Now they're noticing

It's not enough to say I'm sorry
For all the pain and the worry
What are you waiting for?
Give up on me and leave

It's not enough to say I'm sorry
For all the pain and the worry
What are you waiting for?
Give up on me and leave

It's not enough to say I'm sorry

It's not enough to say I'm sorry
For all the pain and the worry
What are you waiting for?
Give up on me and leave
