

# Hope Of The States, Everything For Everyone

Everything is at it's perfect  
Perfect best tonight  
Black sky cracks with stars  
All the old days fall apart

Stand up and hold your head up high  
I know you try till the day you die  
Maybe no-one knows your name

Hey you  
Don'tcha know, we won the war again  
I see what you meant  
When you said  
That there's hope in everyone

Stand up and hold your head up high  
I know you try till the day you die  
Maybe no-one knows your name  
They'll know it one day

I sing it to everyone alone  
I'm gonna sing it to the day I go  
Maybe no-one's listening  
They'll hear it one day

Stand up and hold your head up high  
I know you try it 'till the day you die  
Never even knew your name
