

# Horace Andy, Eternal Love

As sure as the sun rises in the east  
My love for you, baby, will never die  
Eternal love, eternal love  
As sure as the stars shines in the sky  
My love for you darling, will never cease  
Eternal love, eternal love

You and I must be more than mystic  
In whatever we do  
When the bad times comes along  
You must be brave and I'll be strong

As sure as the seas rises, I know  
My love for you, baby, will forever endure  
Eternal love, eternal love

You and I must be more than mystic  
In whatever we do  
When the bad times comes along  
You must be brave and I'll be strong

As sure as the seas rises, I know  
My love for you, baby, will never die  
Eternal love, eternal love  
As sure as the sun rises in the east  
My love for you, darling, will never cease  
Eternal love, eternal love

Eternal love, eternal love  
Eternal love, darling, girl  
Eternal love, baby, ah  
Oh, whoa, oh, girl

You and I must be more than mystic  
In whatever we do  
When the bad times comes along  
You must be brave and I'll be strong

As sure as the stars shines in the sky  
My love for you, darling, will never cease  
Eternal love, eternal love

Eternal love, eternal love  
Eternal love, darling, dear  
Eternal love
