

Hot Hot Heat, Conversation

[Chorus]
No need to hesitate
No need to concentrate
No need to slow things down with conversation

Come over here now
I wanna show how
Senses are thrown away
And I should take them this way

I never had it, I never had it, never had it
I need a little bit of love
Well, I need a little bit of love from you

But I know you only want what you can't have

[Chorus]

I say we stay up
They'll never wake up
I always hated it when
You never ?

I, I never had it, never had it
I need a little bit of love
Well, I need a little bit of love from you

But I know you only want what you can't have

[Chorus]

I won't admit what we both know
I won't admit I can't let go
I won't admit what time has shown

You only want what you can't have

[Chorus]
