

# Hot Hot Heat, Have A Good Sleep

Wake up!

You do have a way words -at least with me- unfortunately.

Please tell me this means what I think it does -but secretly- so he won't see.

My dear, I fear that your scandal has corrupted many -disrupted many- anyway.

Have a good sleep on your own.

Have a good sleep all alone.

Tape up your fingers they're bleeding now, so knock less hard.

Wait patiently. Useless -they're useless excuses.

So unnecessary -but not with me.

Holding on, though I don't why. Holding on to your lullabye.

My love is gone, but not for long.
