

Hot Hot Heat, Naked In The City Again

(Chorus)

Says she's got it all. (2x)

Says she's got it.

I don't wanna be the one to tell her that she don't.

But she just don't...

Late night, in a lonely city...

So hard, she tries to look pretty.

Boys don't even notice her though.

She's in need of attention so.

Lost and naked in the city again...

Intoxicated by a quarter to ten.

Lost and naked in the city again.

Begging for a piece of their attention.
