

Hot Like (A) Robot, To Die For Glue

I took a change, for the first time
And at a glance things were happy
You want more than I can give
And I would just die for you
IT MAKES ME SICK TO SEE YOU
STANDING THERE WASTING
ALL THIS TIME
You're not fooling anyone
We're misjudged for the first time
And it makes sense for the last time
You want more than I can give
And I would just die for you
We still love you, we still owe you
We still love you, for the last time
I hope that you're comfortable
