

# Hot Milk, Horror Show

I'm awful, got myself in trouble,  
high but feel normal,  
feeling like a social tool.

Headache, this is all a piss take,  
made another mistake,  
am I human earthquake? cool.

I don't like the way you dress, you're too dark you fucked up mess,  
I'm scary, way too overbearing,  
can't be arsed caring,  
give it fucking rest.

Horror show can't look away,  
I'm damned and I'm decay,  
Broke my heart a million times, now I'm falling in love with the other side,  
Horror show so stay away,  
deadly but still afraid,  
Lobotomise my brain.

You're shaking, hate how I'm vibrating,  
hearing bones breaking, haven't you heard the news?  
injected with something subjective, inner child neglected  
can you stomach the truth?  
You're a victim of yourself, stunted by your one brain cell,  
so perfect with you picket fences, nuclear defences,  
what will they really do?

Horror show can't look away,  
I'm damned and I'm decay,  
Broke my heart a million times, now I'm falling in love with the other side,  
Horror show so stay away,  
deadly but still afraid,  
Lobotomise my brain.

Always found the beauty in darkness,  
hard to see when you act so heartless,  
Does this circus scare you to death?

Horror show can't look away,  
I'm damned and I'm decay,  
Broke my heart a million times, now I'm falling in love with the other side,  
Horror show so stay away,  
deadly but still afraid,  
Lobotomise my brain

(YEHHHH)  
Welcome to the show
